

## KOGI STATE UNIVERSITY, KABBA

FACULTY OF SCIENCE AND COMPUTING (Department of Computer Science)

KSUK-COS 105: Computer Applications

UNIT: 2

Session: 2023/2024 Semester: FIRST Date: 06/05/2024

Time allowed: 2 HRS.

Instructions: Answer all questions in sections A and B.

### Section A

1. The software that controls and manages hard ware and basic system operations for a computer is called \_\_\_\_\_.
2. An operating system with a graphical user interface is called \_\_\_\_\_.
3. A program that detects, prevents and takes action or remove malicious software programs such as worms, virus is called \_\_\_\_\_.
4. Network of interconnected computers around the World is called \_\_\_\_\_.
5. A software application for retrieving, presenting and transversing information resources on the WWW is called \_\_\_\_\_.
6. A group of related web pages that are linked together to form sites is called \_\_\_\_\_.
7. \_\_\_\_\_ and \_\_\_\_\_ are examples of operating system
8. \_\_\_\_\_ and \_\_\_\_\_ are versions of windows
9. \_\_\_\_\_ is a temporary storage whose contents are cleared when the computer is turned off
10. \_\_\_\_\_ is the principal storage of a computer
11. \_\_\_\_\_ is the largest circuit board in the computer where every other component connects
12. \_\_\_\_\_ is the physical component that makes up a computer system.
13. The process of using computer to create, edit and print documents is called \_\_\_\_\_

### SECTION B (Answer all questions)

1. (a) As a computer student, define the process that makes the computer system of your client to be very slow, no longer boots up and loss of files  
(b) Explain how you would solve the problem of your client in (1a) above
2. (a) List and explain five (5) major application areas of computers.  
(b) Mention the two (2) types of processor and give three (3) examples each.
3. (a) Mention three (3) requirements to get connected to the internet.  
(b) Mention two (2) search engines.  
(c) Define booting and mention the two types of booting you have learnt.
